

ImpactBoard.

Easily access credible evidence to maximise impact

A data management system that helps organisations track, measure and communicate results

Organisations today are inundated with vast amounts of data from various sources. Many organisations struggle to manage this data effectively, leading to inefficiencies, data silos, and missed opportunities. Without a streamlined approach to data management, organisations face challenges in harnessing the full potential of their data to enable effective planning and accountability and drive continuous improvement and innovation.

Data Collection

Streamlined data collection

Save time and effort, capture data once and use it many times, whether online or offline

Data Visualisation

Insightful dashboards

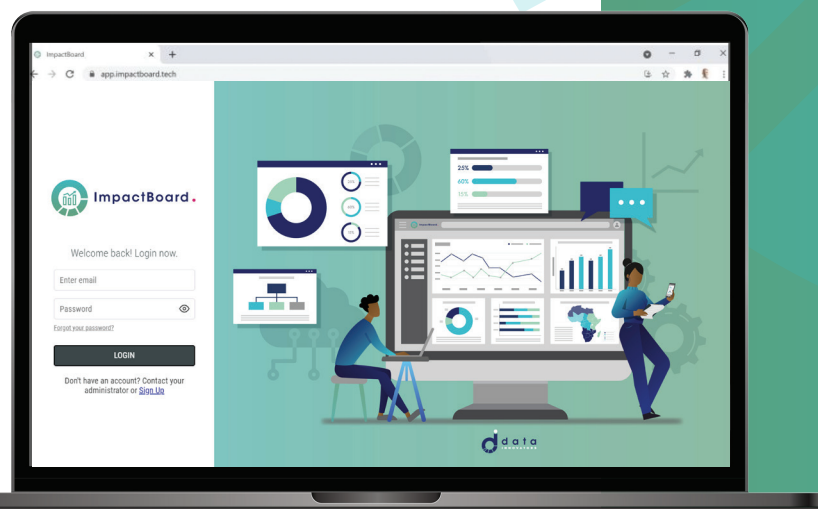

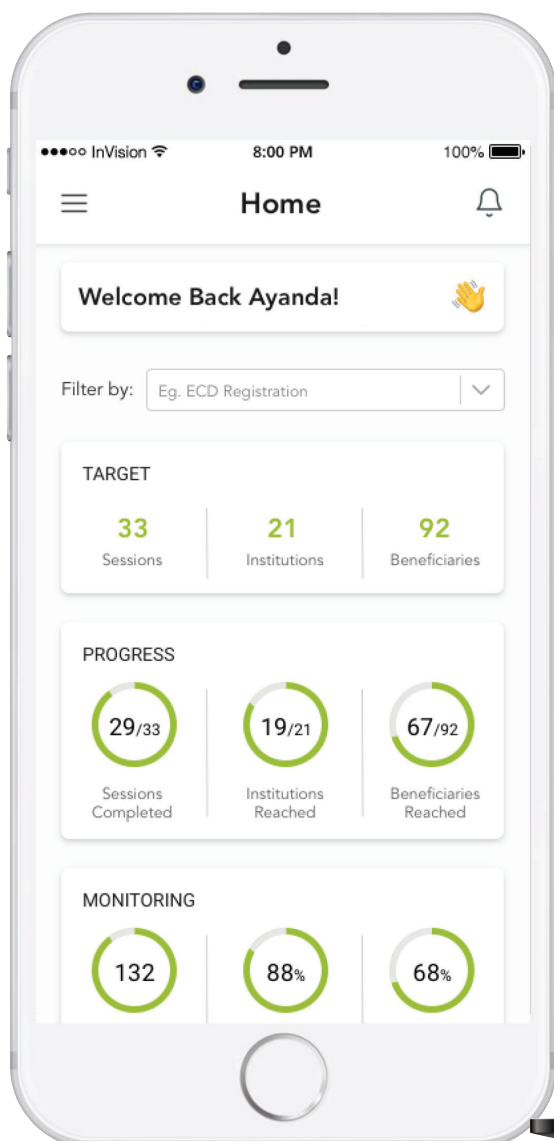

See insights at a glance, in a central place, without having to mine them from multiple spreadsheets

Portfolio Reporting

Integrated reporting

Generate reports online, using standardised indicators and multiple data sources

Unlock the full potential of your data, drive operational efficiency and fuel innovation. Speak to execution and results with confidence.
